Theis (1935) no flow

Theis (1935) no flow

Test Data :

Discharge rate : 1.32e-02 m³/s

Distance distance : 20 m

Hydraulic parameters :

Transmissivity T : 9.84e-04 m²/s

Storativity S : 3.87e-03

Radius to image well Rd : 314.8 m

Fitting parameters :

slope a : 2.5 m

intercept t₀ : 7e+02 m

intercept t_i : 1.7e+05 m

mean residual : 0.0059 m

2 standard deviation : 0.38 m

Root-mean-square : 0.19 m
